PROSPECTUS OF THE "NATIONAL MON-UMENT,"

The Monument is intended to be a literary, agricultural and miscellan sous paper. It will contain selections of the literature of the day—the best that can be found in American and english publications: inter-sting scientific articles, embracing mechanics; foreign and domestic news; asynopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of aiding in the erection of the nobleculum now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of Washington would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is carnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's graitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument journal, as one well qualified to perform the duties of celitor, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their follow-citizens that this enterprise is not a spear faithfully, and satisfactorily to the subscribers. They assure their follow-citizens that this enterprise is not a spear faithfully, and satisfactorily to the subscribers, of the direct subscription to the erection of the Monument will be, in any event, applied to the support of the paper, nor the Society in any manner held pecuniarily responsible.

Terms.—The Monument will be printed on a doubleroyal sheet—the paper and type being of the best quality—
and in quarto form, containing sixteen large pages, that
it may be more easily preserved. The price will be two
dollars per annum, payable on the receipt of the second
number. The nature of the enterprise not admitting of
any credit, none can be given.

Societies and clubs will be furnished with the Monument
on the following terms: 3 copies for \$5.5 copies \$8.10

copies, \$15; &c.

Those who are disposed to patronise the Monument are copies, \$15; &c.

Those who are disposed to patronise the MONUMENT are requested to forward their names to the General Agent, without delay. The first number will be published early in May, and the second on the second day of August, and weekly thereafter; time being allowed for the Prospectus to be circulated, and for the agents to make returns. As all subscribers will be contributors to the Monument itself, their names will be published in the paper.

Austin's Magic Freezer,

Through in six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented September 19, 1848.

The distinguising merits of this Apparatus are—Ist. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric sir, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

H. F. JACKSON,

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 gallons,) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect. The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and isstered manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Traveller's Home.

are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the rectation on Monday morning is always in the Greek Testament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the Village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION.

In order to admission to pursue the entire course, a student must be at least fourteen years of age; must give satisfactory evidence of good moral character; and must sustain an examination in the following studies, viz:

Arithmetic, Elements of Algebra, Latin and Greek Grammar, Jacob's or Feiton's Greek Reader, and the first two books of Xenophon's Anabasis, Jacob's or Deoring's Latin Reader, Sallust or Cæsar, Cicero's Select Orations, and Virgil, or what shall be deemed equivalent.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College alsaess. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College as can be profitably enjoyed by academical students.

The charge for Roarding, Washing, Fuel, Light, &c., with tuition in the English, Latin, and Greek, is seventy dollars for the Summer Session, and seventy-five for the Winter Session. The only extras are one dollar per session for incidental expenses, and a fee of eight dollars for Medern Languages, and a fee of five dollars for Drawing, from those who enter these classes. The sessions and recations of the Proparatory Department are the same as those of the College.

Rev. MATTHEW MEIGS, A. M.,

WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution we situated in one of the healthiest parts of the city of Witnington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from discasse contracted while here.

The rourse of instruction includes, besides the ordinary English branches, Natural Philosophy, Chemistry, Physicology, History, Rhotoric, the various branches of Nathematics, and the Latin, Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable spaparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month (Suptember,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

dedicine, "THE GREAT VA. REMEDY," in the diseases you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its ass, and the salutary effects which I have witnessed from its employment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very aggravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaclation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertige and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

English Common Law Reports,

58 Volumes, with a complete Index to the first 47 Volumes.

Since volume 39 of this series, The English Common Law
Reports have been regulated in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. George Sharkswood and George W. Biddle, Esqrs. 1 vol. 8vo.—35 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

CAMBRIDGE, January 25, 1845.

Messrs. T. & J. W. Johnson: Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncom-mon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library. JOSEPH STORY.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,

Simon Greenleaf.

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts.

The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

REAL ESTATE IN VIRGINIA FOR SALE.

The subscriber has not yet disposed of his real estate
in Prince William county, Virginia. He is still decirous of selling, and will do so on accommodating terms.
It consists, first, of 947 acres of land, in from two and a
half to four miles of Brentsville, the county town, fourteen miles of Occoquan, thirty miles of Alexandria, and
from four to five miles of the Orange and Alexandria Rallroad, which will be completed to Brentsville this
year. This land is well adapted to the growth of wheat,
corn, rye, oats, and grass. It is a mixture of the red and
grey soil, and admitably adapted to improvement by the
use of clover, plaster, guano, &c. It is heavily timbered,
and finely watered, having lasting springs of the pureawater. It is capable of being divided into five or six good
sized farms, and with tolerable buildings and small orchards on four of them. I will sell it all in a body to a
company, or will divide it to suit purchasers, at prices
ranging, according to quality, at from \$5 to \$5 per acre. I
will only require one-fourth of the purchase money in
hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be secured
on the property. Land is rapidly rising in value in the
neighborhood, and I offer great inducements now, as I
wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentsville, suitable for a carfriage-maker, wheelwright, or blacksmith, with two dwelling-houses, kitchens, blacksmith,
carriage, and wheelwright shops, and other necessary
buildings. \$1600 is now, my price for this property—on
the same terms as the land. It is within a mile and threequarters of the rallroad.

Thirdly. Nine and a quarter acres of land on the turnpike, just above Buckland, on which are a good dwellinghouse, a large wheelwright shops, kitchen, stable, dairy,
and smoke-house. It would make a good tavern stand,
and the shop a good stable. For this property I will take
\$500—on the sa WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution to situated in one of the healthlest parts of the city of Wilmington, en-

tion, but might be easily resuscitated, and is a very good place for the business. For this I will take \$400—on like terms.

Fifthly. A lease lot in Haymarket, with a pretty good house, kitchen, a large shoemaker's shop, stable, &c. The buildings are a little out of order. The lease may run for ten or twelve years. For this I will take \$100.

Sixthly. A valuable farm in Alleghany county, Mary land, containing 200 acres, within eight miles of the National Road, and ten to twelve miles of the Baltimore and Ohio Railroad. This farm is in a thriving neighborhood is heavily timbured, has a good and never-failing stream of water running through it, and several mill-seats; abounds in iron ore and coal; has a fine sugar majle or chard on it, and a mineral spring, which I think equal to the White Suiphur or Bedford, and has now some forty or fifty acres of the land cleared. The soil is not surpassed by any in the country. I am disposed now to take \$4 per acre for it. Mr. Abraham Steel, who lives near it, will show it to any one wishing to purchase. The property in Prince William county, Virginia, will be shown by Eppa Hunton, esq., who is authorized to sell; or by Mr. Edwin W. Latimer, or Mr. Robert Hodgkin. I shall be in Brentsville about the middle of May, and will, in person, show the property to any one wishing to purchase.

FURNISHING MAIL LOCKS AND KEYS.

POST OFFICE DEPARTMENT,

March 14, 1851.

T being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with procals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right

sion for examination and report. Opon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suit able for the mail service should possess the following qualities, vis: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand newlocks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the amual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contract on the service. In case of the failure of

besides a resort to the penal remedy hereinafter mentioned, to annul said contract, and to contract anew with
any other party or parties as he may see fit, for furnishing
similar locks and keys.

In deciding upon the proposals and specimens offered,
the Postmaster General may deem it expedient to select
for the through mails the lock of one bidder, and for the
way mails that of another. He reserves, therefore, the
right of contracting with different individuals for such
different kinds of locks as he may select, and also the
right to reject all the specimens and proposals, if he shall
deem that course for the interest of the Department. The
party or parties contracting will be required to give bond,
with ample security, in the sum of thirty thousand dollars, for a faithful performance of the contract. The contract is to contain provisions for the due and proper inspection of the locks and keys, and also for guarding
against their passing into improper hands; the terms of
these provisions to be arranged between the Department
and the successful bidder, if a bid should be accepted.

No application will be considered if not accompanied
with satisfactory evidence of the trustworthy character of
the bidder, and of his ability to fulfil the contract.

N. K. HALL,
Postmaster General.

HUNT'S MERCHANTS' MAGAZINE
AND COMMERCIAL REVIEW.
Established, July, 1830,

BY FREEMAN HUNT, EDITOR AND PROPRIETOR

York, neatly and substantially found, for two dollars and a half per volume.

The following are a few of the many commendatory letters received by the editor of the Merchants' Magazine from distinguished statesamen:

Letter from the Hon. Henry Clay.

Ashland, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your widness to your friends at the end of it. When we feel mider you believed to your friends at the end of it. When we feel mider do ligations to those who have contributed to our infiftuation and amusement, we are naturally desirous to be seal the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have proceed your numerous readers (at least you have me, if I have not speak for them) under those obligations; and the number of your valuable work now before me, if some degree, satisfies the decire to which I have silved.

I have become quite familiar with the Magazine and Review, and have no hecitation in expressing my fumble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, large, amount of valuable statistical and other information, highly useful not only to the merchant, but to the states man, to the cultivator of the earth, to the manuacturer, to the mariner, in short, to all classes of the business and reading community. man, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant, Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fillmore.

Extract of a letter from Hon. Millard Filmore.

"I' have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite Indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Latter from the Hon. Thomas H. Besten.

where so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Latter from the Hon. Thomas H. Benton.

Washington Citt, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchants' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful mater which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchanics but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Yery respectfully, sir, your obedient servant, THOMAS H. BENTON.

Letter from Hon. Win. H. Seward.

My Dear Sir: Have the goodness to place my name on your list of subscribers for the Merchanics Maganies. I

Letter from Hon. Wm. H. Seward.

My Dear Sir: Have the gootness to place my name on your list of subscribers for the Merchants' Mingasies. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

I am, with great respect, your humble servant, Freeman Hunt, esc. WILLIAM H. SEWARD. The Merchants' Magazine is published monthly, at 142 Fulton street, New York, by Freeman Huss, and furnished to subscribers for Five Dollars a year, in advance. mar 24

W. & S. SPRING IMPORTATION.

ELASTIC* UNIVERSAL TOUCH.

WISK & BROTHER, Manufacturers of Bondoir, Grand, and Square Pianos, request those who would be assured of a first class Plano, one that ladies can perform on with the greatest possible advantage—one that the touch an be instantly adjusted to the exact strength of the basers and movement of music, one that will stand in compart tune, one that the tone will not become shrill and retaing, that is chaste of style and elegantly made up of straight and regular curve lines, that will last an agre-to-give them a call. The ancient standing of the Ballimore Factory, and liberal patronage of citizens and others of the first order of artistic taste and science, conceded at once the most critical, have been fully anticipated. Their recently finished Grand Piano, minutely reviewed by the most accomplished civil engineers and mater artists, has been denominated truly a Grand Piano; also, that their late Boucher, for style, power, and compase of tene is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

J. J. WISE & BROTHER,

**Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree hard, or soft touch, so that ten thousand or more performers, all different, may each find the touch fley prefer.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is eituated about three miles from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messra Hodges & Bryants; and the scenery in all directions is unsurpoints of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Niggars for my manufacture of view, from which may be taken forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards celdiess and purity, by any in the United States. The house, recently erected at a cost of about seven thousand deliars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently especiess to accommodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dansville, N.-Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a mitter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel.
